Temujin-1000 Tears Review

Category: [Music](#)

Ok, get out your black “Duds” for this one! We have new review and taking you into the “Goth” Metal scene for this one. First of all, I want to thank Kelly for joining NU Jams! and bringing her new CD to our attention. Anybody who knows me knows I am a huge fan of new music, any and all! So keep it coming!

Temujin, for anybody who doesn't know their history, is the birth name of Genghis Kahn, the Mongolian conqueror. About the band, Temujin is an Australian band that is building a huge international following. The heart and founder of the band Karl Lean does all the guitar, bass and drum

work on the album! He has be in the Australian metal scene for over 10 years with the band Nothing Sacred. Kelly adds the final touch with her mesmeric lead vocals and keyboards.

1000 Tears is a self produced and released. It is available through many different popular sites. This 13 track masterpiece leaves nothing short for the metalheads out there! The lead track "Find Me" will hook you and have you demanding more. Followed by the powerful title track "1000 Tears". It won't disappoint you! Be sure you crank it up for the anthem "Sheltered"! And My favorite "Haunted" is catchy with it's melodies and fist banging all in one. Listen for yourself here!

This is a definite buy on my list! A must have for all you metal heads and fist bangers! Not a Metal Head? Then you will enjoy the great voice and melodies that Kelly provides. Temujin -1000 Tears is an album that will capture you from start to finish no matter what your musical taste may be. Two thumbs up because I only have two thumbs to put up!

Temujin has no association with NU Jams! We are not influenced in any way, form or fashion. I just enjoy sharing my opinions. Now everybody needs to go visit Temujin and thank them for all their hard work they do for us fans!
